

Regenerative Medicine Educational Conference & Hands-on Workshop for Autologous Biologics in Podiatry

Presented by Gulf Coast Biologics

May 18-19th, 2018

Sanibel Harbour Marriott Resort & Spa, Ft. Myers, Florida

We welcome you to the Gulf Coast Biologics Regenerative Medicine Educational Conference and Hands-on Workshop for Autologous Biologics applications in Podiatry.

The Mission

To educate physicians and other medical professionals and provide hands-on training workshops, where we introduce and identify the potential of autologous biologics in podiatric medicine. To provide a unique experience in preparation and application techniques and convey how patients can benefit from the dynamic power of these biologics.

Autologous Biologics in the Armamentarium of Podiatric Medicine

A large percentage of the foot and ankle problems are repetitive strain injuries, developing from acute to chronic inflamed tendon, ligaments, and fascia injuries. Conventional therapies consist of long-term steroidal, and/or non-steroidal injections/medications, and in some cases ultimately a surgical intervention. Chronic (diabetic) wound care patients are often treated with a magnitude of primary and secondary dressings, not often leading to full wound epithelialization. The conference has a focus on treating these pathologies by using autologous biologics like PRP and bone marrow concentrated cells. A renowned and well experienced faculty will introduce new and innovative autologous biologic treatment options and protocols for a variety of podiatric indications, ranging from tendinopathies, degenerative-osteo arthritis, ligament/tendon tears, chronic wounds to critical limb ischemia. A practical hands-on program, including biological injection techniques combined with precision guided ultrasound, will conclude the conference.

The Keynote Address Presented By:

Michael Rivera, DPM, FACFAS, DABFAS
Executive Board Member
Florida Foot and Ankle Associates
Pembroke Pines, FL.

Program and Conference Director:

Peter A. Everts, PhD
Director & Chief Scientific Officer
Gulf Coast Biologics

Regenerative Medicine Educational Conference & Hands-on Workshop for Autologous Biologics in Podiatry

AGENDA

Day 1: Friday, May 18th, 2018

- | | |
|-------------------|---|
| 4.00 – 5.00 pm | Registration |
| 5.00 – 5.15 pm | Welcome and venue introduction
Peter A. Everts, PhD, Director Gulf Coast Biologics |
| Moderator: | Thomas G. Zwick, DPM, DABFAS University of Miami |
| 5.15 – 5.45 pm | The Essentials of Platelet-Rich Plasma Formulations as an Autologous Regenerative Biologic for Tendinopathies
Kentaro Onishi, DO |
| 5.45 – 6.15 pm | Autologous Biologics in Podiatry Regenerative Medicine
Peter A. Everts, PhD |
| 6.15 – 6.45 pm | Defining Regenerative Medicine and Clinical Sciences
Diego Correa, MD, PhD |
| 6.45 – 7.15 pm | Nerve Surgery in Podiatry.
Robert G. Parker, DPM, FACFAS, FAENS, FASPS |
| 7.15 – 7.45 pm | Plantar Fasciitis Treatments and PRP
David Crane, MD |
| 8.00 – 9.30 pm | <i>Dinner buffet and</i>

Konica Minolta Ultrasound Workshop:
Basics and Essentials of Ultrasound in the application of needle guidance in Podiatry.
Josh Rothenberg, DO & Alfredo Ferreyra, RDMS, ASAR. |

Regenerative Medicine Educational Conference & Hands-on Workshop for Autologous Biologics in Podiatry

AGENDA

Day 2: Saturday, May 19th, 2018

- | | |
|------------------------|--|
| 7.00 – 8.00 am | Registration |
| 7.50 – 8.00 am | Welcome and Venue Introduction
Peter A. Everts, PhD, Director Gulf Coast Biologics |
| Moderator: | Jerald Carmel, DPM, Foot and Ankle Associates, Miami |
| 8.00 – 8.30 am | Defining Innovative Care in Podiatry
Thomas G. Zwick, DPM, DABFAS |
| 8.30 – 9.00 am | Experience and Outcomes with Autologous Biologics in Osteoarthritis
David Crane, MD |
| Keynote Address | |
| 9.00 – 9.30 am | Innovative Usage of PRP in Foot & Ankle
Michael Rivera, DPM, FACFAS, DABFAS |
| 9.30 – 10.00 am | Steroids vs. Autologous Biologics in Tendinopathies
Jane Fitzpatrick, FACSEP, MBBS (Via Skype) |
| 10.00 – 10.30 am | <i>Coffee break</i> |
| Moderator: | Robert Parker DPM, FACFAS, FAENS, FASPS
Parker Foot and Ankle Podiatry |
| 10.30 – 11.00 am | PRP and MSC's in Chronic Wound Care Management
Peter A. Everts, PhD |
| 11.00 – 11.30 am | Amniotic vs. PRP, What are the Differences?
Natalie Stephens, PhD |
| 11.30 – 12.00 pm | Ultrasonography-Anatomical Lessons and Device Guidance for Joint Injections
Josh Rothenberg, DO |
| 12.00– 1.00 pm | <i>Lunch</i> |

Regenerative Medicine Educational Conference & Hands-on Workshop for Autologous Biologics in Podiatry

AGENDA

Day 2: Saturday, May 19th, 2018

Workshops and Hands-on Cadaver Sessions

Group A:

1:00 – 2:00pm	PurePRP® Prep, Ankle Injection with Ultrasound	Azalea Room
2:30 – 3:30pm	PurePRP® Ultrasound guided Tendon Injection	Hibiscus Room
3:45 – 4:45pm	BMA Aspiration with Aspire, Prep PureBMC® with Ultrasound Imaging	Periwinkle

Group B:

1:00 – 2:00pm	BMA Aspiration with Aspire, Prep PureBMC® With Ultrasound Imaging	Periwinkle
2:30 – 3:30pm	PurePRP® Prep, Ankle Injection with Ultrasound	Azalea Room
3:45 – 4:45pm	PurePRP® Ultrasound guided Tendon Injection	Hibiscus Room

Group C:

1:00 – 2:00pm	PurePRP® Ultrasound guided Tendon Injection	Hibiscus Room
2:30 – 3:30pm	BMA Aspiration with Aspire, Prep PureBMC® with Ultrasound Imaging	Periwinkle
3:45 – 4:45pm	PurePRP® Prep, Ankle Injection with Ultrasound	Azalea Room

ALL:

2.00 – 2.30 pm	Demonstration: PRP ultrasound guided injection ankle Sable Palm
5.00 pm	Closing remarks, certificates, and adjourn.

Podiatry Regenerative Medicine
Training Conference

Regenerative Medicine Educational Conference & Hands-on Workshop for Autologous Biologics in Podiatry

Conference Faculty Information

Jerald Carmel, DPM
Foot and Ankle Associates
Mount Sinai Hospital
Miami, FL

Diego Correa, MD, PhD
Assistant Professor Dept. Orthopedics
University of Miami
Miller School of Medicine
Miami, FL

David Crane, MD
Sports Medicine and Regenerative Orthopedic
Specialist
Blue Tail Medical Group,
St. Louis, MO

Peter A. Everts, PhD
Director and Chief Scientific Officer
Gulf Coast Biologics
Fort Myers, FL

Alfredo Ferreyra, RDMS, ASAR
MSK Sonographer
RegenTX Inc.
Ft. Lauderdale, FL

Jane Fitzpatrick, FACSEP, MBBS
School of Surgery
University of Western Australia,
Crawley
Australia

Kentaro Onishi, DO
Assistant Professor Sports Medicine
University of Pittsburgh Medical Center
Pittsburgh, PA

Robert G. Parker, DPM, FACFAS, FAENS, FASPS
Director
Parker Foot and Ankle Podiatry
Houston, TX

Michael Rivera, DPM, FACFAS, DABFAS
Executive Board Member
Florida Foot and Ankle Associates
Pembroke Pines, FL

Josh Rothenberg, DO
Director of Regenerative Medicine and
Orthopedic Biologics
Boca Raton Regional Hospital
Boca Raton, FL

Natalie Stephens, PhD
Scientific Director
BioSciences Research Associates Inc.,
Cambridge, MA

Thomas Zwick, DPM, DABFAS
Podiatry Surgery and Wound healing
University of Miami Hospital
Miami, FL

Conference Registration

Attendees are provided with a review of all relevant basic knowledge subjects in regenerative medicine. The scope of the overall conference includes a glimpse into the future of Regenerative Medicine. Also included are didactic presentation session followed by a comprehensive hand on cadaver training course in the application of regenerative biologics. The training course is directed by renowned clinical and scientific leaders in the field of regenerative medicine. Register today to enhance your knowledgebase and expertise.

Attendee Registration is \$ 1,350.00

Receive \$ 250.00 / person discount when registering office members as a group

Conference Contributors

EmCyte Corporation® is the world leader in autologous cellular biologics, with products that meet the highest achievable performance standard in cellular concentration potency and yield. With over 19 years of experience, EmCyte has stayed committed to innovation that truly makes a clinical difference. We have worked to stay on the cutting edge of clinical excellence, making the Aspire® Bone Marrow Needle, PurePRP®, PureBMC®, Progenikine® Concentrating Systems the most advanced biologic concentrating systems available.

KONICA MINOLTA

Konica Minolta Healthcare reinforces your initiative toward better outcomes, improved efficiencies and patient satisfaction with our innovative systems for MSK ultrasound. The superior image quality of the SONIMAGE® HS1 Compact Ultrasound System supports increased diagnostic confidence earlier in the care path. The simply intuitive J5 Ultrasound System provides touchscreen navigation to support needle placement and rapid and confident diagnosis at the point-of-care. Take a deeper dive into specific procedures, with webinars and procedural videos offered through Konica Minolta University at km-university.com. In addition to videos and webinars, the Konica Minolta University site houses a variety of ultrasound resources, including clinical images and white papers, that will be useful in your practice. The link to register for the procedural videos is:

BSR provides custom contract research and laboratory services for product development and clinical trials support to Pharmaceutical and Biotechnology companies. Our staff scientists and consultants are experts in Bioassay development and validation. We are uniquely qualified to provide scientific services in immunology and inflammation studies and assay development for product testing, preclinical through manufacturing in a cGMP quality-controlled environment.
